

WATER WISE PROGRAMMES IN VEREENIGING/ VANDERBIJLPARK

Foundation Phase Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to schools to assist them with a variety of Water Wise programmes that are aligned to the school curriculum. The WWETs, based in Vereeniging, offer the following Foundation Phase programmes at schools:

Manzi's Water Wise Roadshow

Manzi's Water Wise Roadshow is a 30-minute presentation on the Six Meanings of being Water Wise. If your school is having challenges with sanitation problems (for instance in the bathrooms) or if the learners need to learn proper hand washing techniques, these can be incorporated into the programme upon request.

Puppet Show and Manzi's Water Wise Roadshow

A fun 1-hour programme that includes a puppet show and a visit from Manzi. You can choose from a variety of puppet shows including: 'A Bucket! You must be Joking'; 'The Treasure Hunt'; and 'Healthy Living, Healthy Habits'. The programme is concluded with Manzi's Water Wise Roadshow.

The Water Wise Adventure

An exciting 1-hour programme which includes a story about where Manzi comes from and the Six Meanings of being Water Wise.

RAND WATER

WATER WISE PROGRAMMES IN VEREENIGING/ VANDERBIJLPARK

Intermediate Phase Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to schools to assist them with a variety of Water Wise programmes that are aligned to the school curriculum. The WWETs, based in Vereeniging, offer the following Intermediate Phase programmes:

Manzi's Water Wise Roadshow

Manzi's Water Wise Roadshow is a 30-minute presentation on the Six Meanings of being Water Wise. If your school is having challenges with water wastage and sanitation problems, or if the learners need to learn proper hand washing techniques, these can be incorporated into the programme upon request.

Water in South Africa

A 1.5-hour programme that includes a fun, interactive quiz with an in-depth look at water: how humans obtain it, how it is used, and how it is abused. This quiz covers the water cycle; water uses; the collection, transport and storage of water; an introduction to water pollution; and the importance of using water wisely. The programme is concluded with the Water Wise Roadshow.

Clean Water For All

An exciting 2-hour programme where learners will learn about various water sources and the importance of clean water. The programme covers the role that wetlands play as natural water purifiers. The programme also includes the technology that is used to purify water through the demonstration of a water purification experiment. The programme is concluded with the Water Wise Roadshow.

WATER WISE PROGRAMMES IN VEREENIGING/ VANDERBIJLPARK

Senior Phase Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to schools to assist them with a variety of Water Wise programmes that are aligned to the school curriculum. The WWETs, based in Vereeniging, offer the following Senior Phase programmes:

Water Quality Testing

If your school has a water source nearby, you can invite the team to facilitate water quality testing with your learners. Activities include:

- MiniSASS: catching and identification of water life to assess the health of a river.
- Water Quality Testing: the testing of pH, turbidity, coliform bacteria, dissolved oxygen, temperature, nitrates and phosphates. Water quality testing equipment will be provided by Rand Water.

Water in South Africa

A 1.5-hour programme that includes a presentation and quiz that covers the use/overuse of water resources and how water is managed in South Africa. The quiz will include content on the causes and effects of floods; local environmental health problems related to water; and what are some of the solutions.

Clean Water for All

Experience the importance of water and the fascinating properties of water through an interactive experience. Explore careers in the water sector and make wise decisions about your future and the future of Earth, the planet that we call home.

H₂O

Tertiary and External Stakeholder Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to organisations to assist them with a variety of Water Wise programmes:

Water Purification Presentation

A 1.5-hour programme that includes a presentation that covers water as a natural resource; its importance in social and economic development; the challenges to water supply; and how water can be conserved. The following content will be covered: the river catchments of the Vaal Dam (Rand Water's source of water); how is tap water cleaned; how is clean water distributed; and an analysis of water consumption and water conservation tips.

Educator Workshops

Various curriculum aligned materials have been developed by the Water Wise Education Team. Invite the team to 'unpack' how to use these materials in a classroom context to support education for sustainable development.

Special Requests

Organisations may request the services of the Water Wise Education Team for special events such as Water Awareness and Clean-up Campaigns and Career Exhibitions.
