VEREENIGING WATER WISE EDUCATION CENTRE Intermediate Phase Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to schools to assist them with a variety of Water Wise programmes that are aligned to the school curriculum. The WWETs, based in Vereeniging, offer the following Intermediate Phase programmes at schools. During the programme all learners, teachers and facilitators must wear a face mask and adhere to all health protocols and social distancing measures.

Manzi's Water Wise Roadshow

Manzi's Water Wise Roadshow is a 30 minute presentation on the Six Meanings of being Water Wise. If your school is having challenges with water wastage and sanitation problems, or if the learners need to learn proper hand washing techniques, these can be incorporated into the programme upon request.

Water in South Africa

A 1.5 hour programme that includes a fun, interactive quiz with an in-depth look at water: how we get it and how we use it and abuse it. This quiz covers the water cycle; water uses; the collection, transport and storage of water; an introduction to water pollution; and the importance of using water wisely. The programme is concluded with the Water Wise Roadshow.

Clean Water For All

An exciting 2 hour programme where learners will learn about various water resources and the importance of clean water. The programme covers the role that wetlands play as natural water purifiers. The programme also includes the technology that is used to purify water through the demonstration of a water purification experiment. The programme is concluded with the Water Wise Roadshow.

To make booking for the Water Wise Education Team please contact Nyree Steenekamp.
