WATER WISE EDUCATION TEAM Tertiary and External Stakeholder Programmes

Rand Water's Water Wise Education Team (WWET) offers an education service to organisation's at external venues to assist them with a variety of Water Wise programmes. During the programme all attendees, stakeholders and facilitators must wear a face mask and adhere to all health protocols and social distancing measures.

Water Purification Presentation

A 1.5 hour programme that includes a presentation that covers water as a natural resource; its importance in social and economic development; the challenges to water supply; and how water can be conserved. The following content will be covered: the river catchments of the Vaal Dam (Rand Water's source of water); how is tap water cleaned; how is clean water distributed; and an analysis of water consumption and water conservation tips.

Educator Workshops

Various curriculum aligned materials have been developed by the Water Wise Education Team. Invite the team to "unpack" how to use these materials in a classroom context to support education for sustainable development.

Special Requests

Organisations may request the services of the Water Wise Education Team for special events such as Water Awareness and Clean-up Campaigns and Career Exhibitions.
