

# MANZI'S FUN

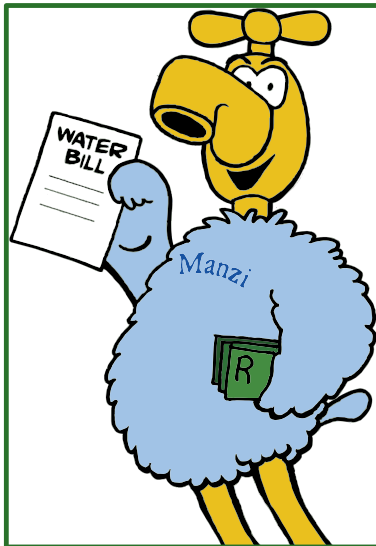

## WATER WISE SIN TIN

When you waste water you are wasting money too! Try out this fun activity to help your family, or classmates, become aware of how they use water on a daily basis. Follow the instructions to create your own "Water Wise Sin Tin".

### WHAT DO I NEED?

- An old clean tin (can be any size)
- An old plastic lid to put on the tin (make sure it fits the tin)
- Some coins or bread tags to make your own coins
- Glue
- A pair of scissors (remember to ask an adult for help)
- The "Water Wise Sin Tin" label
- Pictures of Manzi
- Colouring pencils

### WATER WISE SIN TIN

**Step 1:** Cut out this label and glue it onto the tin.

**Step 2:** Colour in, cut out and glue the pictures of Manzi, using water wisely, onto the tin.

**Step 4:** Your Water Wise Sin Tin is now ready to use!

**Step 3:** Cut a hole, using the scissors, into the plastic lid (big enough for coins) and place the lid on the top of the tin can.

**Step 5:** Record the coins/bread tags.

Name	Week 1	Week 2	Week 3	Week 4	Total

**How to use your Sin Tin**  
Every time you see someone using water incorrectly let them place a real coin (or you can make your own coins out of bread tags) into the Sin Tin. At the end of each week count how many coins has been wasted. You can record it in the table. Add it up at the end of the month.

Manzi doesn't waste water. DO YOU?
