

MANZI'S COLOUR AND TEXTURE EXPERIMENT

For this experiment you will need the following:

Glue, yellow jelly powder, blue jelly powder, a glass of water and a dropper.

What to do:

1. Place glue on Manzi's head, legs and feet and sprinkle with yellow jelly powder.
2. Place glue on Manzi's body, arms and tail and sprinkle with blue jelly powder.

What does the glue **feel** like?
What does the jelly **feel** like?

3. Drop a few drops of water onto the jelly powder using the dropper.
4. Watch how the colours change when you add the drops of water.

Note: Remember to recycle the cardboard box and plastic wrapper that your jelly powder came in. By recycling these waste items you stop them from landing on a rubbish heap and are helping to stop them entering our rivers, dams and oceans.
TAKE ACTION AND RECYCLE.
