

MANZI'S NUMBER PATTERNS

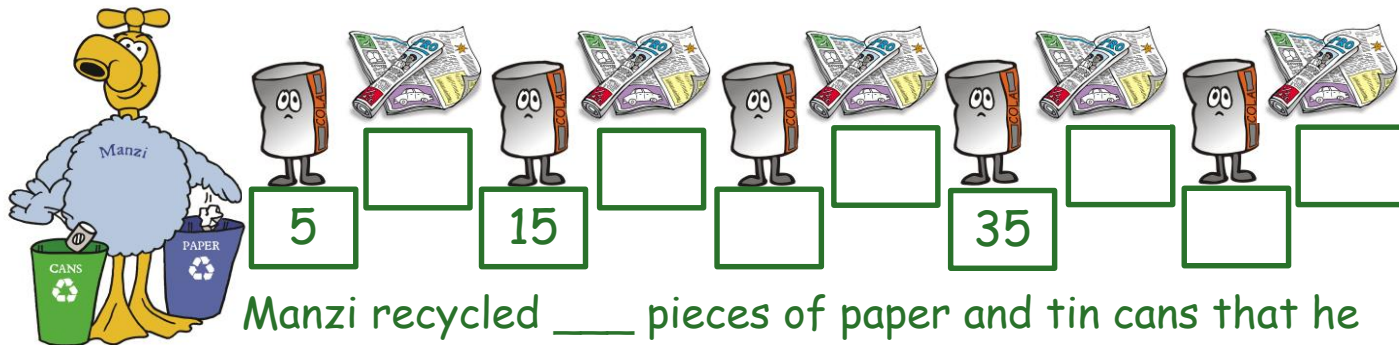

Manzi is picking up waste to help keep it out of our rivers and dams. Help Manzi to count how many pieces of waste he has picked up by completing the number patterns below.

Manzi picked up ___ tin cans when he went for a walk in the park.

Manzi picked up ___ crisp packets and threw them in the dustbin.

Manzi recycled ___ pieces of paper and tin cans that he collected during the day. He is Water Wise because he took action and picked up and recycled waste.

Note: Why don't you collect bread tags or bottle caps and use them to help you add up your answers. By reusing these waste items you stop them from landing on a rubbish heap and are helping to stop them entering our rivers.
