

# MANZI'S MATHS

## NUMBER ARRANGEMENT - SMALL TO LARGE

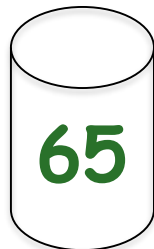

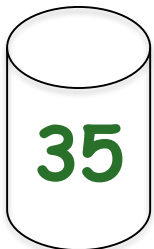

Manzi has poured different amounts of water into different cups. He wants to place the cups from the smallest number to the biggest number. Help Manzi by looking at the cups in each row and write down the numbers on the lines from smallest to biggest.

Manzi is always wise with his water. Once he has finished with all the cups of water he pours the water into a jug and places it into the fridge to drink a little bit later.
