

# Manzi's Water Wise Mission

With a head shaped like a tap  
His body is round and blue.  
He has feet like a duck  
Now who do you think is this cool dude?

His magical name is Manzi  
And he wants you all to know  
That looking after our water  
Is a must if we wish to see ourselves grow.

His mission is to teach us  
6 things that must be done  
To become Water Wise children  
For us to be number one.

Now let's start with number one.  
Let's all put up our thumbs  
And say together now  
"Respect Water, Respect Life for everyone."

Let's move to number two  
And put out our pointer finger.  
Shout out loud, "Don't Waste our Water"  
There is no more time to linger!

Lesson number three  
Comes from the middle man.  
Don't Pollute our Water  
This is a must if we can.

On to number four.  
Ring finger we must use.  
Pay for Water  
This we cannot abuse.

Number five is next.  
The smallest of our fingers.  
Take Environmental Action  
For the future of Generation X.

Now take all your fingers  
And hold the Earth tightly in the palm of your hand.  
Conserve Water, Conserve the Environment  
For the future of our land!!!
